NOTES:

SUBMITTAL SHEET FOR (-)PRL- JEC 16 SEER REMOTE TWO-STAGE HEAT PUMP UNITS 2, 3, 4 & 5 NOMINAL TON [7.03, 10.5, 14 & 17.58 kW]

Equipped with Comfort Control² System™

- Serial communication enabled
- Increased system reliability and efficiency
- 37+ on-board diagnostic and operating codes
- *Active Protection™* with homeowner "Call for Service" alert
- Exclusive Design with dual 7-segment LED display

"Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your Contractor for details or visit www.energystar.gov <<http://www.energystar.gov/>>."

**FEATURES FOR (-)PRL- JEC 16 SEER TWO-STAGE REMOTE HEAT PUMPS
2, 3, 4 & 5 NOMINAL TONS [7.03, 10.5, 14 & 17.58 kW]**

- Industry’s lowest profile design: 33" maximum height.
- The *Comfort Control[®] System[™]* provides over 37+ on-board diagnostics and fault history codes for condensing units with single-phase compressors by detecting system and electrical problems. The integrated diagnostics with *Active Protection[™]* prevents compressor operation when potentially harmful conditions are detected. Sends “Call for Service” alert notification to the thermostat to alert the homeowner of required service.
- Serial Communication Enhanced – When installed with a Serial Communicating Air Handler ((-)HPL-HM****JC) and user interface control (-HC-TST501CMMS) Series 500 thermostat this unit offers 4 or 2 wire installation, auto-configuration, and diagnostic messaging with full communicating capability.
- Legacy Enabled – Unit can be conventionally wired using 24VAC with non-communicating air-handlers or furnaces with non-communicating thermostat.
- Features a 10-year conditional unit replacement warranty and 10-year parts warranty when properly installed with the Manufacturer’s air handler or the Manufacturer’s indoor coil with the Manufacturer’s gas furnace. See product warranty card for additional information.
- Reliable Two-Stage operation for precise temperature control and On-Demand dehumidification. When matched with ECM gas furnace or air-handler, the system adjusts airflow to help control humidity for unsurpassed comfort in the cooling mode.
- All controls are accessible by removing one service panel. Removable top grille provides access to the condenser fan motor and condenser coil.
- Attractive, louvered wrap-around jacket protects the coil from yard hazards and weather extremes. Top grille is steel reinforced for extra strength. Cabinet is powder painted for all-weather protection.
- For quiet operation and improved efficiency, models feature an ECM two-speed condenser fan motor with a 3-blade outdoor fan.
- All models meet or exceed a 1000-hour salt spray test per ASTM B117 Standard Practice for Operating Salt Spray Testing Apparatus.
- Dual Fuel capable with select thermostats.

FIELD INSTALLED ACCESSORIES

- | | | | |
|--------------------------------------|--------------------------|--|--------------------------|
| Outdoor Thermostats | <input type="checkbox"/> | Blower Time Delay Control (RXMD-C06) | <input type="checkbox"/> |
| 3 Heat/2 Cool Thermostats | <input type="checkbox"/> | Dual Fuel High Pressure Control | |
| Low Ambient Control (RXAD-A08) | <input type="checkbox"/> | (Dual Fuel Kit RXME-A01) | <input type="checkbox"/> |

SPECIAL NOTES ON EQUIPMENT:

Before proceeding with installation, refer to installation instructions packaged with each model, as well as complying with all Federal, State, Provincial, and Local codes, regulations, and practices.
